

Extruded Netting

Tough, dimensionally stable.
Goes on fast and lasts for years.

1) Over the Row – 14ft x 5,000ft

Comes on rolls that fit all hydraulic extruded net machines

Specifications:

- 100% virgin polypropylene
- UV stabilized
- ¾" mesh
- 12 grams per square meter
- **BLACK** for longer UV life – virtually invisible when installed

2) Side Netting – 42in x 5,000ft

Wilson's Extruded Side Netting is the most economical way to protect your vineyard.

- Uses less material as compared to Over the Row netting
- Can be bundled along the drip wire between seasons for rapid deployment and big labor savings

Specifications:

- 100% virgin polypropylene
- UV stabilized
- ¾" mesh
- 12 grams per square meter
- **BLACK** for longer UV life – virtually invisible when installed

ORCHARD AND
VINEYARD SUPPLY

*Our Knowledge –
your best crop.*

**When it comes
to safeguarding
your crop, Wilson
has you covered**

Bird damage costs you money two ways:

- 1) Tens of thousands of tons of grapes are consumed by birds every year.
- 2) Bird pecks becomes entry points for fungal and bacterial pathogens that taint the flavor of your wine.

Wilson bird netting provides complete protection from crop loss and bird damage, saving you money.

**Wilson offers the widest range of bird netting options...
And the expertise to help you get the job done right!**

VINEYARD BIRD NETTING

Knitted Netting

Wilson's knitted netting is rugged but flexible. It is easily installed without expensive equipment, and stores compactly in bags between seasons.

Wilson has four knitted netting options to choose from:

1) Over The Row - Medium Grade - 17ft x 2,500ft

Our most popular vineyard netting – used by vineyards for 13 years!

Specifications:

- 100% virgin HDPE monofilament
- 3 to 5 season UV life
- ¾" mesh
- 13 grams per square meter
- Reinforced edges
- Center and side stripes to guide installation
- **HUNTER GREEN** color

2) Over The Row - Heavy Grade - 17ft x 1,250ft

Twice the weight of our medium netting for optimal rip-resistance and ultra long UV life.

Specifications:

- 100% virgin HDPE monofilament
- 8 to 10 season UV life
- ¾" mesh
- 27 grams per square meter
- Reinforced edges
- Center and side stripes to guide installation
- **HUNTER GREEN** color

3) Two Row Reflective Medium Grade - 28ft x 1,500ft

Wilson Two Row Netting reduces material costs by 17% and cuts installation time by covering 2 rows in a single pass.

Specifications:

- 100% virgin HDPE monofilament
- 3 to 5 season UV life
- ¾" mesh
- 13 grams per square meter
- Reinforced edges
- Center and side stripes to guide installation
- **WHITE** reflective color for optimal light transmission and to repel birds

4) Knitted Zone Net - 40in x 3,280ft (1m x 1,000m)

Our knitted Zone Net protects the "fruit zone" without covering the canopy, so that an acre can be covered with much less netting.

Specifications:

- 100% virgin HDPE monofilament
- 6 to 10 season UV life
- ½" mesh for extra bird protection
- 29 grams per square meter
- Heavy duty banded edges make clipping fast and secure
- **BLACK** for longer UV life – virtually invisible when installed

Bird Netting Applicators & Accessories

Wilson has a full line of supplies to make installing bird netting easy and to prolong the life span of your netting.

Wilson Netting Applicator:

- 3-point hitch mounted applicator platform
- Range of clips & ties for fastening netting
- Plastic cups to place on trellis posts to protect netting from sharp edges
